**Trex<sup>®</sup> Debuts New Board Profiles and Reduced Bundle Packs**  
*Enhanced One-inch Trex Contours<sup>®</sup> and Trex Accents<sup>®</sup> Offer Product Consistency*

**Winchester, Va., Nov. 9, 2009** – Trex<sup>®</sup> recently announced the debut of one-inch board profiles on two of its best-selling collections – Trex Accents<sup>®</sup> and Trex Contours<sup>®</sup>. These enhancements were the direct result of feedback from Trex's industry partners and set the stage for larger changes to the overall Trex product portfolio – including a ground-breaking new decking and railing line – which will be unveiled at the company's Distributor Meeting this week.

“The transition to new board profiles on Accents and Contours will simplify our decking offerings and provide greater design flexibility to mix and match all of our product lines,” said Adam Zambanini, senior product manager of decking at Trex, the nation's largest manufacturer of wood-alternative decking, railing and fencing products.

In addition to the new board profiles, Trex also will be the first decking manufacturer to offer reduced-size product bundles – transitioning from a bundle size of 96 pieces per unit to 48 pieces per unit. This change will create increased product turns for Trex's industry partners. Distributors will benefit from efficiencies in material handling and reduced in-transit material handling damage – while dealers will be able to stock more Trex product without increasing their inventory position.

Said Zambanini, “We believe the reduced packs will provide greater bundling opportunities for our distributors and dealers – allowing them to move more product in less time while increasing productivity and profitability.”

With these enhancements, all Trex decking will now measure 1” x 5.5” and be compatible with the Trex Hideaway<sup>™</sup> hidden fastening system. Additionally, Trex Contours will have a square-edged profile and a grooved edge profile, as opposed to its former scalloped underside. The updated boards currently are available at both Trex manufacturing facilities in Winchester, Va., and Fernley, Nev.

Trex Accents offers a subtle, refined wood grain pattern while Trex Contours features a bold, dramatic grain. Naturally soft and comfortable to the touch, both collections are eco-friendly and low-maintenance, and provide superior durability and wear resistance.

“We are confident that these enhancements to the Accents and Contours products will provide more flexibility and design options to consumers, as well as more convenience and efficiency to distributors and dealers,” said Zambanini.

### **About Trex Company**

Trex Company is the nation's largest manufacturer of wood-alternative decking, railing and fencing, with nearly 20 years of product experience. Built on "green" principles and values, Trex outdoor living products offer significant design flexibility with fewer ongoing maintenance requirements than wood, as well as a truly environmentally responsible choice. In addition, Trex distributes ultra-low maintenance PVC decking under the trademark Trex Escapes® and PVC trim under the trademark TrexTrim™. For more information, visit the company's Web site [www.trex.com](http://www.trex.com). Trex®, Trex Accents®, Trex Contours®, Trex Hideaway™, Trex Escapes® and TrexTrim™ are trademarks of Trex Company, Inc., Winchester, Va.

The statements in this press release regarding the Company's expected future performance and condition constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements are subject to risks and uncertainties that could cause the Company's actual operating results to differ materially. Such risks and uncertainties include the extent of market acceptance of the Company's products; the costs associated with the development and launch of new products and the market acceptance of such new products; the sensitivity of the Company's business to general economic conditions; the Company's ability to obtain raw materials at acceptable prices; the Company's ability to maintain product quality and product performance at an acceptable cost; the level of expenses associated with product replacement and consumer relations expenses related to product quality; and the highly competitive markets in which the Company operates. The Company's report on Form 10-K filed with the Securities and Exchange Commission on March 12, 2009 and its subsequent reports on Form 10-Q filed on May 8, 2009 and August 10, 2009 discuss some of the important factors that could cause the Company's actual results to differ materially from those expressed or implied in these forward-looking statements. The Company expressly disclaims any obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise
