**Trex® Expands TrexTrim™ Portfolio with New Builder Profiles and Moulding**  
*Extensive Lineup Offers Design Flexibility for Builders and Homeowners*

LAS VEGAS, Jan. 19, 2010 – Building upon past innovations and extensive experience selling to the builder channel, Trex will expand its TrexTrim™ collection with the debut of several moulding and builder profiles at this year’s International Builders’ Show (IBS).

Originally introduced in 2007, TrexTrim features a proprietary cellular PVC technology that is uniform in color, density and dimensions and offers crisp lines, clean routed edges and low color fade over decades of use. With its combination of performance and aesthetics, TrexTrim provides homebuilders with superior workability for easy cutting, fastening and painting.

The expanded TrexTrim collection includes four builder profiles that may be installed over various styles of siding and kerfed to fit over flanges that surround windows. In addition, 16 new moulding SKUs in basic, crown, cove and casing profiles combine the details of wood mouldings with the longevity and durability of extruded PVC. All new mouldings and profiles feature the look and feel of existing TrexTrim products.

TrexTrim standard profile boards also boast an exclusive release film and SmoothEdge™ Advantage technology to guard against dirt and debris and reduce the potential for damage during shipping and installation. Furthermore, all TrexTrim is low-maintenance and backed by a 25-year limited warranty.

“The addition of a wide range of mouldings and builder profiles to complement our core TrexTrim offerings will give building professionals increased design flexibility and opportunities for profitability,” said Lance Bunch, product manager for Trex, the leading brand of alternative decking, railing, fencing and trim. “The expansion also proves that Trex is serious about becoming a leader in the trim category, and that we will continue to grow and innovate our product portfolio.”

For more information, visit the Trex IBS booth at #N1525 or go to [www.trex.com](http://www.trex.com).

**About Trex Company**

Trex Company is the nation’s largest manufacturer of wood-alternative decking, railing and fencing, with nearly 20 years of product experience. Built on “green” principles and values, Trex outdoor living products offer significant design flexibility with fewer ongoing maintenance requirements than wood, as well as a truly environmentally responsible choice. In addition, Trex distributes ultra-low maintenance PVC decking under the trademark Trex Escapes® and PVC trim under the trademark TrexTrim™. For more information, visit the company’s Web site [www.trex.com](http://www.trex.com). Trex®, Trex Escapes® and TrexTrim™ are trademarks of Trex Company, Inc., Winchester, Va.
