Trex® to Preview Newest Fencing Collection at International Builders' Show
Trex Surroundings® Pairs Traditional Look with Extreme Durability

LAS VEGAS, Jan. 20, 2009 – Trex® is reinventing one of the icons of the “American Dream” with its new Trex Surroundings® collection. Offering traditional picket construction coupled with the beauty and durability of Trex, this line will be on display at the 2009 International Builders' Show (IBS). Trex Company, the nation's largest manufacturer of wood-alternative decking, railing, fencing and trim products, will give dealers a sneak peek at its latest low-maintenance fencing before it becomes available regionally at retail in late spring.

In addition to being easy to install, Trex Surroundings features unsurpassed durability through a system of re-enforced rails that provide a strong structure. Hidden brackets create a sleek surface appearance and eliminate concern about fading and rusting hardware. As Trex Surroundings posts and pickets will not rot, the product also requires little maintenance and absolutely no painting or staining.

“Trex Surroundings was designed to allow homeowners greater design flexibility and versatility in their choice of fencing options,” said Lance Bunch, senior product manager of fencing and trim at Trex. “It's a strategic addition to our fencing portfolio – joining Trex Seclusions®, which provides the look of a more traditional privacy fence.”

Available in the brand's popular natural brown Saddle color, Trex Surroundings may be installed either in a straight picket or shadow box picket design. The collection's stand-alone 5'x5' post allows for installation on most types of terrain, as the product may be racked down slopes to accommodate property lines and create a seamless look.

“In the current tough economic climate, Trex Surroundings is an ideal fencing choice for homeowners who want to beautify and add value to their homes,” said Bunch. “This collection is specifically targeted at DIYers – as it won't splinter and comes with simple step-by-step instructions. Installing Trex Surroundings is an ideal weekend project that frames any beautiful outdoor living space.”

Trex Surroundings is protected by a 25-year limited residential warranty. For more information, visit the Trex IBS booth at #N2801 or go to trex.com.

About Trex Company

Trex Company is the nation's largest manufacturer of wood-alternative decking, railing, fencing, with over 16 years of product experience. Built on “green” principles and values, Trex outdoor living products offer significant design flexibility with fewer ongoing maintenance requirements than wood, as well as a truly environmentally responsible choice. In addition, Trex distributes ultra-low maintenance PVC decking under the trademark Trex Escapes™ and PVC trim under the trademark Trex Trim™. For more information, visit the company's Web site, trex.com. Trex®, Trex Surroundings® and Trex Seclusions® are trademarks of Trex Company, Inc., Winchester, Va.
